

Statistical Society of Slovenia organizes the **international conference Applied Statistics 2015**, which will take place between **September 20. - 25. in Ribno (Bled), Slovenia.**

The aim of the conference (organized yearly since 2004) is to bring together statisticians, working in diverse fields of statistics and its applications. You can find more information on our web site <http://conferences.nib.si/AS2015/>.

We hope that the conference will be the opportunity to meet statisticians from many countries, fostering new connections and tightening the old ones. In accordance with the FENStatS initiative of closer cooperation of European statistical societies **we provide a discounted registration fee for members of FENStatS societies.**

We would be pleased to have participants from as many world and European statistical societies as possible and would like to invite your members to join us at the AS2015. Beside the conference, Ljubljana and Slovenia provide also lots of natural, cultural, and culinary beauties which are not to be neglected.

Please be so kind and inform members of your national statistical society about Applied Statistics 2015.

If you need any additional information do not hesitate to contact me by the conference e-mail info.as@nib.si or my personal address andrej.blejec@nib.si.

Sincerely yours

Andrej Blejec
President of Statistical Society of Slovenia.
